

# Case Study

## Seven Oaks Park, Cramlington Cramlington Town Council

**We were instructed by Cramlington Town Council to design a MUGA which would be suitable for their chosen location, budget, and requirements of the local community. There was a need within the local area to provide sports and fitness opportunities for older children and adults.**

HAGS designed and installed a MUGA with a 24m x 12m playing surface, with 3m high Arena goal ends, stepping down to 2m Arena panels and 1m high sides. The MUGA was installed with a Chicane entrance and open goal ends to make access and retrieving the ball easier. The playing surface used is tarmac was marked with football and basketball lines.

The Arena spec was favoured by the customer not only for its quality and durability but also because it offers sound deadening panels which suited the busy residential area and surrounding houses.

Address of site:  
Seven Oaks Park  
Dudley Ln  
Cramlington, NE23 6US
