

Case Study

Timms Road Play Area, Banbury

Developed to ensure everyone is welcome, this playground was designed by HAGS, chosen by the local community and installed quickly to ensure the play area was not closed for long!

Now, children from the community of all abilities, particularly those up to the age of 12, have plenty of opportunities to play and connect in a safe, fun environment.

Councillor John Colegrave, Banbury Town Council:

“This new playground is excellent and there was no reason to keep it closed any longer than necessary. The site hadn’t been refurbished for some years and a full upgrade was needed. This new facility is fun and I’m sure local children will spend many happy hours here.”

Samantha Farrow, Banbury Town Council:

“From initial meeting to completion, the whole project has been a seamless, positive experience.”

Project value: £80,000

Address of site:
Timms Road Play Area
Banbury
